How will we
function in DWS?

What are the
key challenges?

Should we control the
data? Should we
have a central
authority? Should we
have a decentralized
authority?

What are the
key challenges?

The artists in residence at the Internet Archives in London are working on a variety of projects, including digital art, video, and sound. Each artist will be working on their project for a period of six months.

The Internet Archives
2017 Artist in Residence Exhibition

The artwork is presented as a panel of the Internet Archives 2017 Artist in Residence Exhibition, created by work in progress (WIP) and other artists, artists and artists. Each artist has their own section of the exhibition, which is a collection of their work.
